kautiva was developed to be  
efficient in both text and  
display environments:

**BOOM!**

**POW!**

over the years **sudtipos** has grown in  
number, skills, and influence. sudtipos faces  
have appeared in high-profile campaigns for  
*coca-cola* and *Levi's*, and in the pages of the  
*new york times*, and the group has created  
custom faces for international clients such as  
*the history channel* and *c&a*.

kautiva serves as a refreshing  
middle ground between serious  
geometric design

and overly humanistic design.

KAUTIVA IS A COMPREHENSIVE  
MODERN SANS SERIF FAMILY THAT  
INCLUDES:
